

The Westville Cottage

Guidelines & Instructions

Thank you for choosing us for your vacation in Provincetown.

We hope you enjoy your stay at our home. Hopefully, you will find everything you need to make your stay very comfortable. Gentle reminder, this is our home, so please respect it – and when you leave, it goes without saying, it should appear just as it did when you arrived. What have we been up to? Since we closed our doors last fall in October, we have undergone significant renovations. We've remodeled for those of you returning this summer welcome back and to those joining us for the first time, Welcome! For a list of the improvements see 11 and 12 below for details. Here are helpful points to remember while staying with us. PLEASE ask us any questions you may have throughout your stay.

The Westville Cottage

General Information/Getting Started/Quick Start

1. **Address:** 47 Pleasant Street, Provincetown, MA 02657.
GPS Co-ordinates: 42.048018307467636, -70.19500822961852
2. **Parking:** Westville Guests have exclusive use of the parking space marked "2". Parking is located just past the long fence on Kings Way (it is the space in the middle). All other spaces are reserved solely for the use of other 2 units of the association.
3. **Keys:** The Westville is outfitted with a keyless entry system. You will be assigned a unique access code that will be active during the time of your vacation with us. For those of you that prefer the old-fashioned key system, an extra front-door key is in the top drawer next to the refrigerator. To enter the Westville, push the House button (located on the lower left side of the keypad) then enter your four digit code (usually the last 4 digits of your cell number).
4. **Shoes:** Leave all your worries and shoes at the door. Please do not wear shoes indoors. The recently refinished floors while pet friendly are soft and subject to easy damage. Barefoot, socks or soft indoor shoes are recommended while inside. Likewise, upon reentry from the beach with your pet, please use the outdoor shower to wash the sand off before entering.
5. **WIFI Name: Westville Cottage and/(5G) PW: (5084874926).** The tower like white box is located on the dresser, please do not disturb/remove it from that area.
6. **Telephone Usage:** You are free to use the telephone for local calls; however, only collect or credit card long distance calls can be made from this telephone line. The phone number is **508-487-4926**. Keep in mind that even for local calls, the full number (10 digits), including area code, must be entered to place a call.
7. **Lighting/Dimmers:** The ceiling lights in the bedroom and living/dining/kitchen and bathroom areas are controlled by electronic Lutron switches which respond to a "light touch." For full bright, simply touch the uppermost button of the switch column to turn on, touch the lowest button to turn off. If you need to dim, use the button in the middle, press up or down until the desired warmth is achieved. The lights can also become night light (warm yellow). To turn on the night lite, simply turn off the lights and immediately turn them on again. All switches with the exception of the bedroom closet are on the Lutron system. The Hub is the small white box also located on the dresser, please ignore it.

The Westville Cottage

There are three switches controlling the overhead lights in the bedroom (for your convenience, there is a switch on both sides of the bed head); four switches in the living/dining areas, with four at the front door (one controls the light above the dining table), one located next to the sliding glass door and one adjacent to the sofa, with those three controlling the remaining five lights in the living area. Two more are located at the kitchen entry/backdoor as we fondly refer to it.

8. **Washer/Dryer:** Please use the washing machine and dryer only when you are in the cottage. Use detergent very sparingly. Carefully follow the load amounts as shown on the bottle cap or Tide Pods (provided)-usually one pod per load. Too much soap can cause overflow and soap may remain in your clothes.
9. **Dishwasher:** It's a Bosch fully integrated unit located between the stove and the sink. Please be sure to pull gently on the drawer bail to open it. The lower knob is purely decorative. We provide the recommended detergent tabs. Additional note, wash cycles typically take 2 hours, please do not open door while wash cycle is in progress. The machine beeps to let you know when the cycle is completed. To silence the beeping open and close door immediately. Do not leave the door slightly ajar as the heat will cause the panel to warp. Once dishes are clean, kindly unload, turn machine off and close door securely.
10. **Home Entertainment Theater System:** The unit is equipped with a Samsung Smart TV and Mini Soundbar for your enjoyment. There are 3 remotes pictured below. Samsung TV, Samsung Soundbar, and the Comcast remote. The Comcast remote is very responsive to motion. So lifting the remote from its surface engages it. With the Comcast remote, you can 'watch TV,' 'listen to music,' etc. You are welcome to stream videos using your own individual account(s) with various providers such as Netflix, Hulu, HBO, Showtime, etc. There is a quick reference guide card located in the following pages.
11. **Noise:** Please have consideration for your neighbors by minimizing noise or loud music, especially during the night. The Soundbar has a very powerful sound, for listening to music or enhancing your movie-watching experience.
12. **Remodeled Bathroom:** The newly remodeled bathroom was designed to deliver a luxury and spa experience every time you enter that room. The **Rain/Waterfall and Handheld Wand shower** is enclosed in glass and a **Smart Toilet** (tankless) is elongated with automatic dual flush operation.
 - 12.1 **The Shower** just select press your intended experience for water, the temperature is preset however can be quickly changed by pressing the small button and turn the dial for hotter or colder water. Special Note, the Handheld Wand is for **EXTERNAL USE ONLY**. You know what we mean, please be respectful to other guests and not insert the Wand beyond surface skin. If we determine such, you will be charged for a replacement head.

The Westville Cottage

12.2 The Smart Toilet, by Hallow

For an all-liquid visit. Gentlemen-get this, if you deposit liquid standing, there is a sensor on the lower right side of the commode, just motion/tap gently with your foot and the toilet will begin the ½ flush. The seat is soft close, so it won't slam behind you (nor should you attempt to force close the lid). If you prefer to be seated for your liquid deposit, when finished, just push the round button (next to the lid) 2X for the ½ wash.

12.3 **For the solid visit,** the toilet seat has a sensor, once you are seated firmly, the toilet will automatically mist the bowl with water to avoid smudging (don't be alarmed). You can manually (courtesy) flush the waste while seated or once you stand, after 5 seconds, the toilet will automatically flush. **Keep in mind, Water in Provincetown is a precious commodity, the toilet is designed to save water. Please do your part and a reminder do not flush anything other than toilet paper and your body/bio waste into the septic system.**

13. Recent Renovation

- a. **Soundproof:** We have soundproofed the cottage (ceiling and walls) to mitigate the free flow of sharp sound between the unit above and next to us.
- b. **Paint:** We have freshly painted the entire cottage...even though the renovation was completed in February, there may be some lingering paint sent which will continue to dissipate over time.
- c. **Closet:** We installed a new bedroom closet system
- d. **Flooring:** We have also refinished and stained the floors with a special whitewash (pet friendly) to give that fresh cool coastal look. We ask that you help us maintain the finish as the floors are pine and original from 1847, therefore **we STRONGLY DISCOURAGE the use of shoes while inside the cottage** and if you're visiting with pets, please rinse their paws at the outdoor shower especially after a beach visit.
- e. **Lighting:** We've upgraded the lighting same Lutron family with dimming features but also included night lights...much softer in preparation for bedtime.
- f. **Covered Deck:** We have covered the deck so you can continue to enjoy the outdoors with a unique undermount system to keep you dry in the event of a new England rainstorm.
- g. **Patio:** Finally, we have Installed a new patio and furnishings for continued outdoor entertainment and enjoyment.

We hope you enjoy the improvements as much as we have enjoyed bringing it to y

The Westville Cottage

Quick Start Tv Information

Activity	Remote Control Required			Instructions
	Comcast	Samsung - LARGE	Samsung - SMALL	
Watch regular TV	a			Press power button in upper right corner - this will turn ON the TV AND the Soundbar
Change channels - regular TV	a			Press number of channel then enter (round black button in the middle) or press and hold microphone button while issuing command such as "Watch HGTV".
Turn off TV and Soundbar	a			Press power button in upper right corner - this will turn OFF the TV AND the Soundbar

Watch Netflix's or other apps	a			Press power button in upper right corner - this will turn ON the TV AND the Soundbar
Access second level TV menu (apps)		a		Press the source button then the large arrow down button to access the second level menu. Scroll with the large right arrow until you reach the desired app (one that is either free or one for which you have an account) then press enter.

The Westville Cottage

Quick Start Soundbar

	Remote Control Required		
Connect iPhone or other Bluetooth device to soundbar	a		
Turn off TV and Soundbar	a		Press power button in upper right corner - this will turn OFF the TV AND the Soundbar
Turn on Soundbar		a	Using the small Samsung remote, press the power button. The unit will boot up and read "HELLO". Use the scroll key to scroll through the menu. Once you get to the "BT" message, hold the key down and watch the "BT READY" message, then hold for five additional seconds until "BT Pairing" is displayed
On your iPhone go to settings, Bluetooth			Your iPhone should then see "[AV] SAMSUNG Soundbar M4" and you should be able to connect to it. Once connected adjust the volume of the Soundbar with your iPhone (trying to do so with the Samsung remote will mute/unmute)
Turn off Soundbar		a	Before turning off the Soundbar, scroll through the menu to return it to "TV ARC" so that it will resynch with the TV. Press power button on the Soundbar remote to turn it off. When you next want to watch TV, using the Comcast remote, the Soundbar will turn on and resynch with the TV "TV ARC" will be displayed.

The Westville Cottage

Comcast Remote control- Quick Start

To watch TV - Use the **Comcast Remote**. Pressing the power button on the top right-hand side. Please note the SoundBar has been programmed to turn on simultaneously when the TV is turned. Volume up/down as needed, you can also select channels up/down as needed.

The guide button to the left of the Xfinity key displays all the available channels and times of various current and upcoming programs. The Xfinity key in the middle acts as the home key....resets any function you didn't originally intend to engage.

The Westville Cottage

Smart Tv Remote- Quick Start

To watch SmartTv (for Streaming service-Netflix, Showtime, HBO, Hulu etc. etc.)-**Use the Samsung Remote** and select source...located on the top right side of the remote. No need to turn the remote on. Select the appropriate App required. You may have to login to the service using your personal credentials. You can also log into **Spotify or Pandora** for music service.

The Westville Cottage

Streaming Devices-How to Connect

To use your personal Streaming Device such as Roku/Firestick etc.

The Westville Cottage

Important Things to Know

14. **Occupancy:** The maximum number of guests allowed are **two (2) persons**. You are permitted to invite a guest to stay overnight but please be advised that extended visits are strongly discouraged. Violations may result in voiding the rental agreement and may have an adverse effect on the return of your security deposit.
15. **Smoking:** Absolutely NO SMOKING on property. Smoking is prohibited inside and outside of these premises. (Including but not limited to: Cigarettes, Cigars, Marijuana/Cannabis and the likes.) Some guests have allergies, let's help keep the Westville Smoke Free.
16. **Fire Emergencies:** For minor fire emergencies, a fire extinguisher is in the kitchen closet, on the wall to the left of the washer/dryer. DO NOT hesitate to call 911 in an emergency.
17. **Emergency Lighting:** There are two in the unit; one located in the kitchen (lighting the living room and kitchen) and the other is in the bedroom adjacent to the French doors.
18. **Candles:** Kindly refrain from using candles inside or outside.
19. **Cleaning:** Although the Westville will be cleaned after your departure, please leave all the dishes and kitchen utensils, and small appliances clean for the next guests.
20. **Trash Removal/Recycling:** The trash and recycling pick-up is very early Thursday morning. As a courtesy to other guests, please put your trash/recycling/doggie poop bags out by Wednesday night at the latest. The trash can and recycle bin are both located in the wooden box to the left of the cottage exiting the main gateway. Please be aware that recycling is mandatory in Provincetown and a list of acceptable items is located both on the inside of the cabinet beneath the kitchen sink as well as under the lid of the wooden trash box outside. On Wednesday afternoon, Alex, the property manager, will place all bins and recycling for the complex, to the right of our gate. (If you mix recyclable materials with your trash, your **damage deposit will be assessed a fee of 50.00**). Provincetown takes recycling seriously. The sanitary engineers will go through the trash during pick-up to determine violators. Please comply. The trash box is locked, and the key is hung on the large W in the kitchen. When lifting the lid, please keep one hand on it as the wind can cause it to close abruptly.
21. **Weather:** The weather on Cape Cod can be very unpredictable – heavy rains can sweep in quickly, so please don't leave all the windows open if you are away from the cottage for a long period of time.

The Westville Cottage

Household Inside

19. **Supplies:** There are some basic (food and cleaning) supplies in the house already. Please feel free to use anything, but please replace anything that runs out. If something breaks, please let us know right away so we can have repairs done or replace an item.
20. **Dishware/Pots and Pans:** These are in the warming drawer under the stove. Please note all the cookware at the Westville are commercial grade, to preserve their serviceability please do not use sharp kitchen tools for cooking or cleaning, but use the non-abrasive sponge provided for cleaning. Likewise, **PLEASE NO STEEL WOOL or abrasives on granite, painted metal, or stainless-steel appliances. We DONOT KEEP STEEL WOOL and like products onsite for a good reason.**
21. **Towels:** The towels are high-quality Turkish towels that require a bit of care and concern. Please do not wash the towels using a detergent containing optical brighteners nor permit them to come into contact with peroxide, acne creams, bleach, etc. – a little common sense will go far in preventing damage to the towels. **NO DRYER SHEETS please.**
22. **PET Towels (Black):** These are located above the washing machine. Care instructions are the same as #23 below.
23. **Make-up Removal Towels:** (black washcloths) No explanation needed. Except we will say do not under any circumstances wash these with the white towels.
24. **Dining Table:** The table extends to accommodate additional guests and combined with the two folding chairs stowed beneath the bed will provide seating for six.
25. **Beach Accessories:** Beach chairs, umbrella, beach towels, and blanket are all located in the bedroom closet. Out of courtesy for our next guests, kindly launder the beach towels and blanket separately from other linens before your departure. Shake out sand from accessories...pouches/pockets in chairs etc.
26. **Shower Faucet:** To operate the shower, **Press/Select** the desired rain/waterfall or handheld (they operate like an on/off switch). For a hotter or colder shower, turn the first dial (counterclockwise for hot/ clockwise for cold). Note the thermostat has been preset, to change the setting, press the small button on the dial. (more at Quick Start #11)
27. **Smart Toilet:** See Quick Start above at #11
28. **Board Games:** the board games are located inside the end table next to the sofa.

The Westville Cottage

Household Outside

29. **Outdoor shower:** Enjoy both hot and cold water and an adjustable rate of flow. Be very cautious if you choose to increase the temperature as the water temperature in the building can get hot quickly.
30. **Bicycles:** The bicycles are provided for the exclusive use of guests of The Westville Cottage. Please do not loan them to anyone. A bicycle is a hot commodity in Provincetown. Please be mindful that it is for some, the only means of transportation. Always keep the bicycles locked when not in use (even when they are parked in the yard). The combination is **4926** (left to right), the last four digits of our telephone number.
31. **Screen Doors:** The front and kitchen entrances are newly outfitted with retractable screen doors. To operate, please hold handle and pull either away from or to the magnetic strip. **Never allow the screen to slam shut as it will cause derailment and damage the system.** They can be difficult for dogs to see them, and they can easily become startled.
32. **Outdoor Gas Grill:** You are welcome to cook on the gas grill. Please be certain that the grill is away from the house before igniting. Before each use of the grill, please season the grates by rubbing on some "Crisco" provided in the refrigerator. **Remember to open grill cover before igniting. Do not leave the grill unattended during use.** Please be sure to turn off the gas supply at the source when you are finished with it. A reserve propane tank is stored beneath the outdoor staircase which services the residence upstairs. Please leave the grill clean after each use.
33. **Watering Plants:** In the summer, the flower beds get extremely dry even with the soaker hose watering once per day. If you are inclined to water, we would appreciate any help you would like to give us. Also, the coiled hose opens on the end spigot.
34. **Water Fountain:** The fountain is on a timer. It shuts off at nighttime and comes on again in the morning. It also has a self-filling valve. If you notice the absence of falling water, please use the coiled hose and just add water to the area with the pebbles for 2- 3minutes. Thanks....
35. **Irrigation valves and timers:** Please do not touch/shut off any of the valves next to the outdoor shower. They are all in the on position....to care for the gardens etc. Therefore, no need to shut anything off...unless in case of an emergency/broken pipe etc.

The Westville Cottage

Pet Information

36. **Care Tips:** while this may seem a no brainier to some.... please do not leave your best friend unattended for extended periods while at the cottage. Especially, the first few days of your stay with us. Sometimes while in a strange environment, your pet “Benji” can become “Cujo” unruly and disruptive (bark continuously, or claw furniture such as floor and or doors) due to anxiety. We also encourage you to take “Benji” for frequent walks and to avoid using the garden area and or patio as a bathroom. Always take pooper bags (located under the kitchen sink or use the pooper scooper) and the likes with you. Dog owners in Provincetown take pride and frown on unaware pet owners who lack in the basic norms and etiquettes of caring for your dog etc. **There are two BLACK towels located above the washer and dryer for your dogs (should you need to dry them for any reason). Please do not use the guest towels for such.** Please visit our website (www.westvillecottage.com) for more information on traveling and staying with your pet at our home and elsewhere. Having three beloved dogs of our own we are appreciative of pet-friendly accommodations when we travel.
37. **Flea and Tick Repellent:** If you are reading this and are guilty of not protecting your pal before getting here, now is a good time to go out and get the necessary repellent and apply immediately. Please note that by protecting your pal you are not only safeguarding him/her from an uncomfortable stay, but you will also be protecting future guests of the Westville.
38. **Local Veterinary Information:** Before you leave your hometown for your vacation, it's a good idea to know where the local animal hospitals are in the area. In Provincetown we have two hospitals/clinics. Please be sure to program these numbers into your cell phones just in case and be mindful of their somewhat abbreviated hours.

Veterinary Wellness Center of Provincetown

(508) 909-4800

43 Race Point Rd UNIT E1

Vetster Veterinary Telemedicine

On demand 24/7 online telehealth visit with on call vets around the country

The Westville Cottage

38. **Walking and Pet Sitting:** It is very important to walk your buddy several times daily. Remember he/she wants to explore the new area or for returning guests, say hello to old friends (just like you), so getting outside is very important. The dog park is a great way to run your dog till he/she is way too exhausted to wreak havoc at the house (in your absence.)

(774) 772-4186

39. **Dog Park:** Exit the Westville and head towards Fritz's Way, turn left and walk towards Brown Street, turn right onto brown and left onto Shankpainter Road. The Dog Park is on the corner of Rt. 6 and Shankpainter.... just past the Stop & Shop supermarket.
40. **Dog/Pet Friendly Restaurants:** See listing on page 16

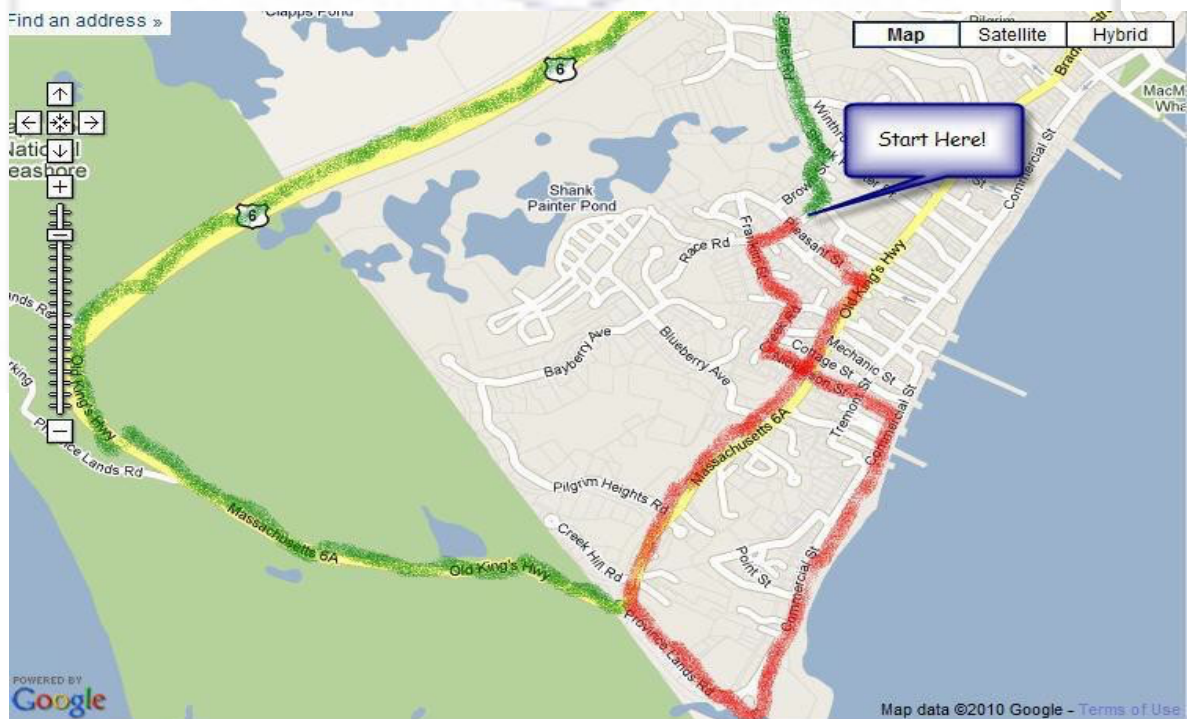

The Westville Cottage

Great Outdoors

41. **Beach:** To get to the town beach as quickly as possible, follow Pleasant Street southerly until you reach the public access from Commercial Street, a seven-minute stroll away. To Herring Cove: follow Pleasant to Bradford Street, turn right going westbound, bear right onto Rt. 6 look for the parked bikes...that's the entrance. Happy trekking over the dunes!
42. **Running Trail:** if this is your first time with us and maybe your first time to Provincetown and you enjoy running, here is Dominic's quick "get your heart pumping" run (red line). Start running toward Race Road, turn left onto Franklin (at the long, split-rail fence), run up hill, turn right onto creek Road, run downhill and turn left onto Nickerson. Follow Nickerson across Bradford heading towards Commercial St. Turn right onto Commercial Street heading far into the West End, past the boat launch, Red Inn, Delft Haven, Pilgrims Landing....keep running and bear right onto Bradford Street Extension. Follow Bradford to Pleasant, turn left on Pleasant. For Paul's OMG...." I'm gonna run till I drop" (green line) ...keep on Rt. 6 once you pass the Pilgrims landing, run straight past Bradford Extension, go by the entrance to the walking trail for Herring Cove... (same one mentioned above with the parked bikes). You will also pass the parking lot for the beach on your left. Eventually you'll be coming upon Shank painter Road, turn right and pass the Dog Park and Stop and Shop, make your first right onto Brown Street, left onto Fritz's Way, right onto King's Way and you're home! Hope you're still breathing!

The Westville Cottage

Emergency System

38. Fire Alarm: Detailed instructions are posted on the bulletin board in the kitchen. Alarm set/Reset touchpad is in Unit #1 so in the event of a fire alarm, leave the building and call 911. The system is monitored but it's wise to call it in as well.

Seaside Alarms will call unit #1 in Provincetown first to verify. If there is no answer in unit #1, Seaside follows our designated phone tree notification. We need to let Seaside know that everything is ok. Our password is "Owner". If no one on the phone tree responds or is available, the Provincetown Fire department will be called. We are allowed 3 false alarms per year. Charges are assessed after three (3) false alarms.

39. Water Detection/Excess Cold

If water is detected in the floor or excessive cold is registered, the alarm monitoring system will notify Seaside. Seaside will notify the phone tree.
